PLANT A TREE TEWKSBURY

The Town of Tewksbury would like to notify you of a cooperative tree planting program with National Grid that will take place this Spring. Our goal is to plant 25 street trees along the Town's right-of-way.

Before planting commences, the Town is reaching out to residents to identify those who are interested in having a tree planted along the street in front of their home. The Town will determine if the location is suitable for planting and provide a choice of appropriate species that will not interfere with overhead wires. If you are interested in securing a street tree or would like more information on the program, please contact the Department of Public Works (DPW) at (978) 640-4440. Due to the necessary lead-time, we ask that interested residents contact the DPW no later than April 22, 2022. Supply is limited; therefore, this is a first come first serve opportunity. Thank you.

Sincerely,
Brian Gilbert, Director
Tewksbury Public Works
